Local fishermen have been surprised the people by bringing in catches of dolls and their friends are receiving presents of them. In Stonington the fishermen who come in usually with sea food have been capturing crabs and grapefruit for the crabs. Automobile owners are laying in automobile tires which were fished up off Watch Hill. These strange articles were cast off the S. S. Concord which caught fire 12 miles off the point.

The girl represented herself to be over 16 years of age.

JEWETT CITY

The board of assessors are performing their yearly duty of rating up the property of the town. They are in session at the town hall as usual. Friday a man drove over from the south part of Griswold to turn in his list. Opening the door of the assessors' room, the assessor saw the officials in charge, with their desks and papers drawn up to a roaring stove. About the room were piles of wood, reminding one of the old town houses of another age. "What" said the visitor in surprise, "I thought this here ranch had a steam plant." "It has, but it hasn't," replied the head assessor. The man had business with the town clerk, whom he found trying to light an oil heater. Again, legal matters necessitated a visit to the court department. Here the man came face to face with sturdy manhood, for there, Judge Burnham, clad in buckskins, with two overcoats, cap well pulled down and rubber boots, was bravely facing the cold alone.

It is believed that never before did such unusual contributory causes combine to complete such work. The furnace is in the cellar, also, in said cellar are 125 barrels of what once was cider, first placed there by the Connecticut state police, and later taken over by Uncle Sam. Moreover, the cellar door is locked and the key is in Hartford in the possession of the federal authorities.

The selectmen have been legally advised that under the present trying circumstances, and considering the persistent low reading of the thermometer, that probably they could enter and build a fire in the town furnace. Further advice is to the effect that it might be attended with uncertain results, to suddenly warm up 125 barrels of cider to 78 degrees, which are repelling peacefully enough at 25. The end is in sight, however, for it has been promised that the unwelcome storage shall be removed in the near future.

Shea, aged 47, of epilepsy; Augustus Read, age 81, degeneration of heart; Harry Paul, 62, chronic bilateral nephritis.

A number of women were at work in the Baptist church vestry Friday afternoon. Two children rushed in and with much excitement reported a fire out back of the church. Investigating they found a grass fire close up to the sheds burning brightly. Indeed the sheds would have kindled in a few minutes. Some were for turning in an alarm, but on second thought an impromptu fire company was organized, with Miss Foster as fire chief and Mrs. Prior assistant. They put up a fire fight with mops, brooms and hastily drawn pails of water, and won out. The fire was started by irresponsible youngsters who have done the same thing once before.

Elba, New York.
"I suffered with Eczema in my face
for five years. I tried several doctors,
two of whom were specialists on Skin
Diseases, and got no help whatever.

Last April I read an advertise-
ment about Dr. E. E. N. Olsen and
Dover, N. H., being completely re-
lieved of a stubborn case of Eczema
similar to mine by the use of "Fruit-
a-tives" and "Sootha-Salva."

On May 1st, I began using these fruit
juice tablets and after two weeks I
saw improvement. On June 1st I be-
gan using "Sootha-Salva" and by the
first of August, I was completely
cured.

I can now work on the hottest days
in summer and get my blood heated
and the Eczema does not bother me."

In all the history of medicine, there
has never been another treatment for
Eczema. Rash and other skin dis-
eases to compare with the peculiar

used in connection with "Sootha-
